### IMA A Website

[www.indmaa.org](http://www.indmaa.org)

### Aglime Council Website

[www.aglime.org](http://www.aglime.org)

Dear IMAA Members,

An amazingly wet spring has hampered the attempts at recovery of the aggregates industry. Flooding has cost people homes and lives, not to mention jobs and industry. Hopefully Mother Nature will reverse course and allow things to get back to normal and give our industry a fighting chance to recover. Times are still tough for our industry as a long-term highway bill is yet to be signed and legislative band-aids are still being applied. INDOT does have a strong highway program in place this year but not everyone is getting the benefit from it.

IMA A is having our annual Fly-In to the nation's capitol on June 15-17 and we would like to thank our participating members as it allows us to get face to face with those legislators who influence our industry. We must make our concerns known regarding the direction our government is taking regarding the aggregates industry. There are over 40 people attending the Fly-In this year, and we would like to thank them for taking the time to visit with their Indiana legislators.

We continue to face increased regulation from MSHA, and IMA A has set up seminars with Mark Savit of Patton Boggs LLP to discuss these regulations and how best to protect our industry and your company from increased regulation. These seminars are scheduled at different locations throughout the state to make it easier for you to send key personnel from your company to attend. The first seminar is July 26th at Sellersburg Stone Company in Sellersburg, the next seminar is July 27th at the VU Aviation Technology Center in Indianapolis, and the final seminar is July 28th at the Ramada Plaza Hotel in Warsaw.

The annual summer meeting is with the Asphalt Pavement Association of Indiana again and is being held at French Lick on July 15-17. We have a great program planned there and there will be plenty to do for all families. Speakers at the meeting include Terrence Brookie and Brian Falcon of Frost Brown Todd presenting "Email Discovery in Litigation, the Duties to Preserve Email Communications and Documents, and Email Policies in the Threat of Litigation," Indiana State Treasurer Richard Mourdock presenting "Global Economic Trends and the Impacts on Indiana Construction and Mineral Businesses," Indiana State Senator Tom Wyss presenting "What Just Passed in SB 473? Will the Gas Tax Be Enough?" and INDOT Deputy Commissioner Jim Stark presenting an update on INDOT construction and funding. The meeting is a great opportunity to support the association with your sponsorship. Contact the IMA A office if you are interested in sponsoring the summer meeting.

Lastly, the Teachers' workshop is June 21-23 and there are still sponsorships available. This program can pay benefits for our members when you need help in your communities. Call the IMA A office for more information.

TOM NUGENT, President

**Process Machinery, Inc. & Metso** are this month's *Source Report* sponsors. Please give them and all Associate Member Companies every opportunity to be your supplier when you need goods and services.

Thanks again to our June newsletter sponsors for their support of the Association.

# Membership Spotlight

**Obituary — Rex F. Kepler**, (February 12, 1921 - May 18, 2011), 90, of Lafayette, died at 7:50 a.m. on Wednesday, May 18, 2011 at Rosewalk Village. Born February 12, 1921 in Crawfordsville, he was the son of the late George Robert and Fanchon Hollick Kepler. He was a 1939 graduate of Jefferson High School and received his CPA from Indiana Business College. He served with the 71st Infantry Division in the US Army from 1944 to 1946 in the European Theatre. He sang in the 5th Infantry chorus traveling Germany and Austria. He received the Bronze Medal. Mr. Kepler worked for the now Vulcan Materials for 48 years where he was Vice President of Sales and Marketing, retiring in May 1989. He then became co/owner of Kepler and Associates in 1986 and also was co/owner of the Come Along Travel Club in 1997. He married Patricia "Pat" Smart Muston on July 17, 1978 in Lafayette, and she survives. Mr. Kepler was a member of Trinity United Methodist Church where he was a 60 year member of the Trinity Challengers Class, Musicians Local #162 since joining in 1939, F&AM 50 year member of Lodge #123, 32nd Degree Mason, Scottish Rite in Indianapolis, a 50 year member of American Legion Post #11, Lafayette Rotary Club where he played the piano for 32 years, Past President of Indiana Mineral Aggregate Association, and Purdue Presidents Council member. He sang with the Festival Singers under the direction of Al Stewart, played in the Cherry Lane Dudes, and accompanied the Ambassadors, a singing group from the Senior Center for 17 years. He began playing in local big bands in 1938 and the Citizens Band for many years. Surviving with his wife is a son, Robert Kepler (wife, Katherine) of Russellville, AL. Also surviving are four grandchildren and six great grandchildren. He was preceded in death by a daughter, Carol Sue Lanfear; a brother, Robert H. Kepler & a nephew: Phillip Kepler. Memorial visitation was Saturday, May 28, 2011 from 1-2 p.m. at Trinity United Methodist Church. Military honors were presented by the US Army and American Legion Post #11. The family requests memorial contributions be sent to the American Heart Association or Charity of Donor's Choice. Hippensteel Funeral Home entrusted with care.

## Order Now! NEW IMAA Mineral Boxes

The new IMAA Mineral Boxes have arrived! The new plastic boxes are much more durable than the former cardboard boxes, and they are also more compact for easy transport. Thank you to Mary Foster for compiling the new booklet inserted into each Mineral Box, replacing all the loose-leaf paper inserts. The booklet also features vibrant color pictures for mineral identification.

The Mineral Boxes will be available to members at a price of \$2.00 per box. Call the IMAA office to place your order. They will be shipped to you after they have been assembled by Janus Developmental Services, Inc.

**IMAA Mineral Box = \$2.00 per box**

## 2011 INDOT Letting Dates:

July 13, August 10, September 8, October 13, November 16, December 14

## Plant Operators Committee News— by Kevin Cox, Chair

The Plant Operators Committee held a meeting on April 7th to evaluate the 2011 seminar, "The Shocking Cost Savings from Electrical Efficiency" and to start planning the 2012 seminar.

Industry experts presented information to 37 attendees that they could take back and apply to their operations to reduce costs. Participant evaluations were very favorable as to content and applicability to their cost reduction efforts.

We have now started planning for the 2012 seminar. As always, our desire is to present relevant and practical topics that will assist attendees in improving the efficiency and profitability of their operation. This year we decided to reach out to the membership during the planning stage with an informal poll of topics that they have a desire to learn more about to accomplish these goals. If you have topics that you would like to see presented, feel free to contact the IMAA office or a committee member.

We look forward to seeing you at the 2012 Plant Operators seminar.

### **Safety Committee News – by Jeff McIntosh, Chair**

Greetings, The Safety Committee met on April 28 and was well attended. The committee discussed many items including the upcoming Fly-In to Washington DC, supervisors training by Mark Savit, recent MSHA activity and compliance assistance in respect to required documentation paperwork. Please make some time to attend the next meeting being held at the IMAA Summer Meeting in French Lick on July 14th at 9:00 a.m.

The agenda has been set for the Fly-In and the group has secured a meeting with Neal Merrifield, Administrator for Metal and Non-Metal division of MSHA, and potentially Assistant Secretary of Labor, Joe Main. As you are all aware, this is a great opportunity for our group to discuss items with the leaders of our industry enforcement agency. Our focus is not to come across as complainers, but to discuss the areas that would make our overall goal of improving the safety of our greatest resource, the miner, a value added, co-operative process. I am troubled by the many stories that I hear, of how the agency is reacting but remain very optimistic that we will all get our heads together and come up with an understanding of how this can be accomplished in an efficient manner.

If you haven't already done so, I would encourage you to register for the upcoming seminar by Mark Savit with Patton Boggs LLP. This seminar will focus on topics our frontline managers should find very enlightening and helpful. If you attended the seminar last year, do not hesitate to attend again this year as the topics are different and will no doubt leave you having "learned something today."

If you have issues or items of interest that you would like to share with me or the association, please feel free to do so.

*Have a Safe and Successful Day, Jeff*

### **Environmental Committee News — by Doug Lozier, Chair**

The Environmental Committee of IMAA met on April 28, 2011 at the IMAA office.

The committee reviewed the environmental presentations that were given at the Winter Workshops. We were very pleased that the environmental sessions had a much larger attendance than previous years. It is hoped that more plant managers and supervisors will attend if the environmental topics are those for which the supervisory personnel have some control in their operations.

Kathy Moore of Keramida provided us with an update of the IDEM Office of Air Quality rulemaking to amend the source specific operating agreement (SSOA) air permits. While we know that part of their intent is to add provisions for crushing of broken concrete and for recycled asphalt pavement, there have been no further developments since their original notice asking for input. The committee will continue to watch this for future developments.

Members are advised that the Spill Prevention Control and Countermeasure Plan (SPCC Plan) revisions continue to be on target for compliance in November of 2011 unless they are stayed or amended between now and then.

Some members have received a survey form from the Great Lakes Commission. Members are encouraged to complete the form by updating their preprinted information and verifying the location of the water withdrawal point on their map. Submitting it to the GLC will allow them to accurately update the US EPA Inland Sensitivity Atlas, which is very important if you also need to develop an Oil Spill Facility Response Plan.

We look forward to seeing everyone at our next meeting on July 14 at 10:00 am at the French Lick hotel.

### **The AgLime Council— by Brent Leininger, Chair**

The AgLime Council is preparing for the 2011 aglime season. Each member should have already turned in their samples. The May deadline will allow plenty of time for Bowser-Morner to run the test and have the results back to us before the advertising deadlines. The AgLime Council is working hard again. We are looking to perform most of our ad designs and advertising scheduling in house. We plan to use a couple of major farm magazines and news papers as our main advertising campaign. We had positive feedback from aglime dealers and farmers regarding our 2010 ad campaign. We have some new ideas that we will be discussing in our next couple of meetings regarding new advertising. The Council is also looking at setting goals for the future regarding education, growth and aglime promotions. Thanks again to our members for their continued work and participation in the Council.

### **Golf Committee News — by Jerry Irving, Chair**

Greetings from the rainy north end of the State. The IMAA Golf team will be headed to Champions Pointe GC on June 12 & 13 for the 4 State Challenge. With any luck at all, the rain and storms will subside so our team will prevail and bring the trophy back to Indiana for another year. If you know any team members, wish them luck so we may prevail once again. The 2 State challenge has been set for October 9 & 10 at the Pinnacle GC near Columbus, Ohio. With any luck at all we will retain that trophy also. Until the next source report when we will give you the results of the 4 State Challenge. Your Humble Golf Chair, *Jerry Irving*

## P.I.E. Committee News — by Dana Boyd, Chair

The PIE Committee has finalized the details for this year's Teachers Workshop scheduled for June 21st-23rd. Once again the workshop will be held at Conner Prairie Living History Museum in Fishers, Indiana. We encourage you to spread the word to your local teachers today and assist them with getting registered. For more information please refer to the Association website at [www.indmaa.org](http://www.indmaa.org).

The Committee would also like to encourage all plants to continue working toward their 2011 Excellence in Mining and Community Connection award entries. Please make certain up to date information and photos are submitted for all entries.

As a reminder to our valued Associate members; please take a look at the new Associate Member Company Award on the website. This award was developed by the committee to recognize companies who are going above and beyond.

Please start planning for your attendance at the PIE Committee Golf Fundraiser on September 14th. The event will once again be held at Eagle Creek Golf Course in Indianapolis.

We ask as a committee, that your organizations continue to get involved with local communities to help put a positive image of our industry in their minds.

### **Upcoming Important PIE Committee Dates –**

*June 21st-23rd:* Teachers Workshop held @ Conner Prairie-Fishers, IN

*August 16th:* Koinonia Trail Workday- Pierceton, IN

*September 14th:* Pie Golf Fundraiser-Eagle Creek Golf Course, Indianapolis, IN

## **Buy Local: Public Works Contract & Supply, Material & Equipment Purchases — provided by ICA**

**HB 1004 --** a massive bill that includes everything from decreases in the corporate income tax rate to legalizing a dog licensing ordinance. Provisions that should concern our members are:

### **Buy Local – Public Works Contracts**

Effective July 1, 2011, a local agency (including cities and towns, counties, public school districts, special taxing districts such as a sewer district and most other local government bodies) is required to award a public works contract to a "local Indiana business" without regard to price, if a contractor meeting the criteria set by the law for a "local Indiana business" has bid on the contract, is responsive and responsible, and at least one "local Indiana business" has claimed a price preference provided in the law. A firm qualifies as a "local Indiana business" by meeting any one of five criteria, two of which must be defined by the local governmental body. These are:

- 1) A business whose principal place of business is located in an "affected county."
- 2) A business that pays a majority of its payroll (in dollar volume) to residents of "affected counties."
- 3) A business that employs residents of "affected counties" as a majority of its employees.
- 4) A business that makes significant capital investments in the "affected counties" **as defined in rules adopted by the political subdivision.**
- 5) A business that has a substantial positive economic impact on the "affected counties" **as defined by criteria in rules adopted by the political subdivision.**

An "affected county" includes the county in which the agency awarding the contract is located **and** any adjacent county. Contractors will need to contact local agencies to determine if the agency has adopted rules defining the criteria for significant capital investment and positive economic impact. The law also allows a "local Indiana business" to claim a price preference on a local public works contract. The preference is set at 5% for contracts expected to be less than \$50,000, 3% for contracts expected to be at least \$50,000 but less than \$100,000, and 1% for contracts expected to be at least \$100,000. To claim the preference, a bidder (or quoter) must state in its bid that it is claiming the preference and must provide the following specific information to the agency regarding its eligibility under the "local Indiana business" criteria:

- 1) The location of the business's principal place of business and, if the business is claiming principal place of business as justification for the preference, a statement explaining the reasons the business considers the named location as the business's principal place of business.
- 2) The amount of the business's total payroll and the amount of the business's payroll paid to residents of affected counties.
- 3) The number of the business's employees and the number of the business's employees who are residents of affected counties.
- 4) If the business claims the preference based on "significant capital investments in the affected counties," a description of those capital investments and a statement of the amount of those investments.
- 5) If the business claims the preference based on having a "substantial positive economic impact on the affected counties," a description of that economic impact.

The law requires award to the lowest responsive and responsible "local Indiana business" claiming the preference unless a "local Indiana business" that hasn't claimed the preference is the lowest responsive and responsible bidder for the project. It appears that a contractor that doesn't meet the "local Indiana business" criteria cannot be awarded a local public works contract, regardless of its bid, as long as one or more "local Indiana businesses" claim the preference. If no bidders satisfy the criteria as a "local Indiana business," then the award would be to the lowest responsive and responsible bidder as occurs under current law.

### **Buy Local – Supply, Material and Equipment Purchases**

The provisions affecting purchases also take effect July 1, 2011. While there are many similarities between the price preference provisions in the law between public works and purchases, there are also some significant differences. The definitions, criteria for being a "local Indiana business," amount of the price preference, and process for claiming the preference are the same. For those purchase contracts that are based on price, the statute does not require award to a "local Indiana business." The provisions of HB 1004, when considered with existing Indiana law, provide for determining an adjusted offer for offerors who claim the "local Indiana business" preference. This would be determined by reducing the offer by the applicable price preference percentage. Since existing law allows a variety of purchasing processes, the applicable process will determine whether the award is made on the basis of the lowest adjusted offer or if other factors are considered. Other preferences already allowed in state law for purchases could also be a factor. The provisions taking effect on July 1 also provide that a purchasing agency **"may award"** (emphasis added) a contract to the lowest responsive and responsible offeror, regardless of the preference provided in this section, if the lowest responsive and responsible offeror is a local Indiana business." Suppliers that bid on local supply purchase contracts will need to contact those local agencies to determine if they have adopted rules defining the criteria for significant capital investment and positive economic impact.

Will you be at  
French Lick this summer?

Single = \$240 | Couple = \$425 | Teen = \$185 | Child = \$65

July 15th - 17th

### Schedule of Events

#### Friday, July 15

4:30 – 8:30 PM

**Registration / Hospitality Desk**

6:30 PM - 8:00 PM

**Welcome Reception**

#### Saturday, July 16

7:30 AM – Noon

**Registration / Hospitality Desk**

8:00 AM – 9:00 AM

**Family Breakfast**

9:00 AM – 11:00 AM

**Joint Business Meeting**

Presenters: Terrence Brookie & Brian Falcon of Frost Brown Todd LLC  
(9 AM – 10 AM)

*Email discovery in litigation, the duties to preserve email communications and documents, and email policies in the threat of litigation*

Presenter: Richard Mourdock, Indiana State Treasurer  
(10 AM – 11 AM)

*Global Economic Trends and the Impacts on Indiana Construction and Mineral Businesses*

Noon – 5:00 PM

**Golf – Donald Ross Course or Pete Dye Course**

**Holiday World**

**Free Time**

7:00 PM – 7:30 PM

**Reception**

7:30 PM – 9:30 PM

**Western Party / Dinner**

**Entertainment: The Brothers & Co.**

*Bull Whip Artistry, Comedy, Magic and Music*

#### Sunday, July 17

7:30 AM – 11:00 AM

**Registration / Hospitality Desk**

8:00 AM – 8:45 AM

**Family Breakfast**

8:45 AM – 11:00 AM

**Joint Business Meeting**

Presenter: Senator Tom Wyss  
(8:45 AM – 9:45 AM)

*What just passed in SB 473? Will the Gas Tax be enough?*

Presenter: Jim Stark, INDOT Deputy Commissioner  
(9:45 AM – 10:30 AM)

*INDOT Construction & Funding Update*

**Free Time / Departure**

### Hotel Information

We have secured a discounted group rate at the French Lick Resort of \$179 plus applicable taxes. You may also reserve a room at the West Baden resort, at a rate not to exceed \$219 per night. Please reserve your hotel room by contacting the Resort directly 1-888-936-9360 using the booking code 0711APA. When calling, please reference the APAI-IMAA Summer Meeting at the time the reservation is made to ensure you receive the discounted rate. You may also make reservations on the Resort's web site, [www.frenchlick.com](http://www.frenchlick.com) and use the booking code 0711APA. **Reserve your room by Thursday, June 23, 2011 to ensure you receive the group rate!**

### Saturday Activity Offerings

#### Golf Challenge:

Showcase your golf skills at the annual golf challenge! This year's challenge will be Saturday, July 16 beginning at noon. This year you will be able to choose between the Pete Dye Course (\$350 per person, *this price does NOT include a \$30 required caddy fee to be paid onsite*) or the Donald Ross Course (\$115 per person). You will be able to select your preference when completing your registration. **Pete Dye reservations must be received by noon May 31, 2011.**

*Donald Ross = \$115 | Pete Dye = \$380*

**Big Splash Adventure:** Explore the 40,000 sq ft of exciting water attractions for all ages from tots to teens, or the latest interactive games at The Treasure Chest Arcade all under one roof at the Big Splash Adventure—one of the few retractable roof water parks in the world. **To purchase day passes, please visit [http://www.bigsplashadventure.com/wp\\_prices.php](http://www.bigsplashadventure.com/wp_prices.php)**

#### Holiday World:

Have family fun at Holiday World & Splashin' Safari, conveniently located approximately 1 hour from French Lick Resort in Santa Claus, IN! **Admission tickets are offered at a discounted rate of \$29.95 per person and may be redeemed any time during the season. Tickets must be reserved in advance and are non-refundable after June 20, 2011.** You will be able to reserve your tickets when completing your registration. For more information on Holiday World and Splashin' Safari, please visit [www.holidayworld.com](http://www.holidayworld.com).

*Discount ticket = \$29.95*

#### French Lick Resort:

For those in search of a leisurely weekend, enjoy all French Lick has to offer from the comforts of the Resort! French Lick Resort offers a number of activities to choose from - spend a day at the stables for horse and pony rides, hang out at the pool or bowling alley & arcade, shop in one of the resort's 14 stores, or spend a relaxing day at the spa! Visit [www.frenchlick.com](http://www.frenchlick.com) for more information!

#### Nearby Attractions:

For those wanting to explore the area, French Lick and its surrounding communities boast a number of attractions, including Patoka Lake, the Indiana Railway Museum, and Spring Mill State Park! To help plan your weekend getaway, visit <http://www.frenchlick.com/recreation/nearbyAttractions/> or <http://www.visitfrenchlickwestbaden.com/>.

# 100 BOWSER MORNER Centennial

In 2011, Bowser-Morner, Inc. proudly celebrates 100 years of providing laboratory testing and engineering services to private industry and the public sector. On April 29th, the company hosted an Open House at its headquarters in Dayton, Ohio for customers, employees, and state and local dignitaries.

Bowser-Morner's mission is to provide quality, professional services in field and laboratory testing and subsurface investigations as well as to provide engineering and scientific expertise. The company's reputation for data integrity is known throughout many markets.

Services to the Mineral Aggregate industry include: Consulting Geology ♦ Physical Testing of Mineral Aggregate ♦ Chemical and Physical Analyses of Limestone ♦ Aggregate & Mineral Exploration With SONIC and Wireline Rock Coring

Bowser-Morner employs approximately 140 engineers, scientists, technicians, and administrative personnel and has regional offices/laboratories in Toledo and Cincinnati, Ohio; Lexington, Kentucky; and Springfield, Illinois.

Steve Bowser, President and CEO of Bowser-Morner, will draw one name to receive an Apple iPad and a 1-year Internet data package on Friday, July 29, 2011. To register for your chance to win, please visit Bowser-Morner's web site at [www.bowser-morner.com](http://www.bowser-morner.com).

Bowser-Morner is a proud member of the Indiana Mineral Aggregates Association.

**NEW TOPICS!**

Mark Savit of Patton Boggs LLP presents

## HOW DID WE GET HERE? WHERE ARE WE GOING?

### COPING WITH THE NEW MSHA!

Indiana Mineral Aggregates Association's Safety Committee has arranged for Mark Savit, a nationally recognized safety lawyer and expert on mining and mine safety law, to present three informative sessions throughout the state to help you with your MSHA struggles.

#### Topics Include:

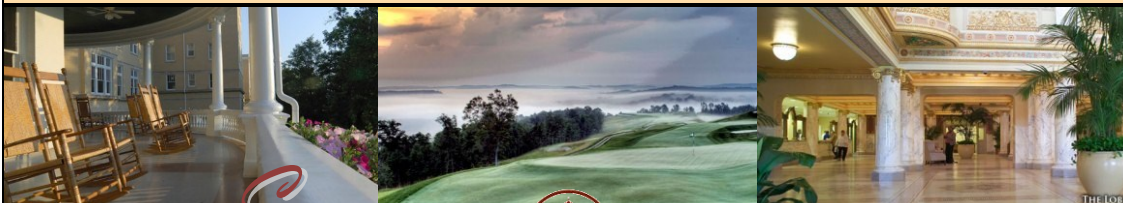

- ◆ Health Sampling
- ◆ Pattern of Violation
- ◆ Enforcement Surprises
- ◆ MSHA Inspections in Today's World

Tuesday, July 26th @ Sellersburg Stone Company—Sellersburg, IN

Wednesday, July 27th @ VU Aviation Technology Center—Indianapolis, IN

Thursday, July 28th @ Ramada Plaza Hotel—Warsaw, IN

Process Machinery, Inc. (PMI) is Metso's crushing and screening distributor in Kentucky, Ohio and Indiana. PMI is a full-service, authorized Metso repair source, providing field and shop services, experienced technicians and parts specialists. PMI has the expertise to extend the life and increase the profitability of your operation.

# Metso – the right solutions for profitable crushing and screening

## TS series screens

### Decreasing travel speed

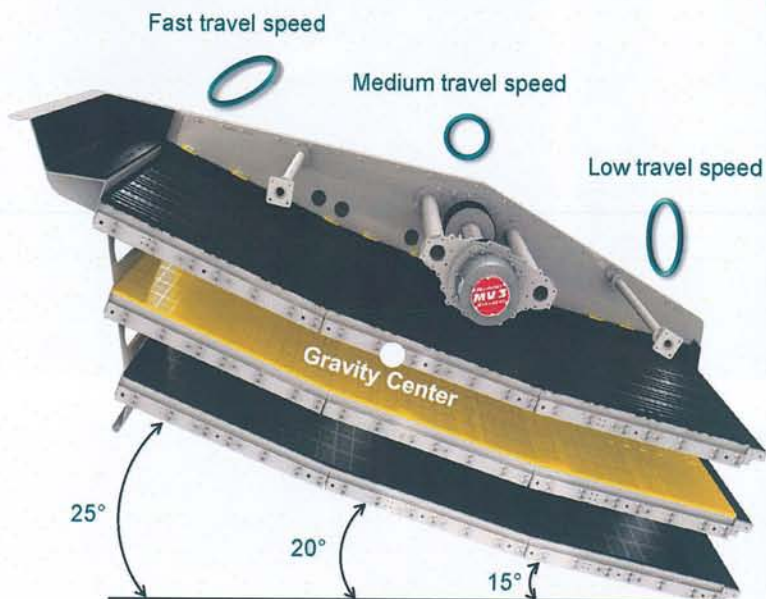

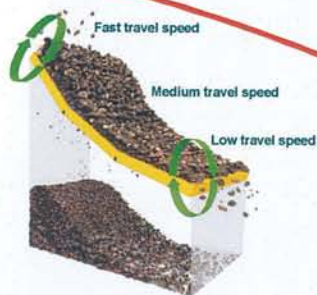

- Strong stratification
- Three (3) different slope angles
- More time and surface to screen the near size particles
- High energy screening action prevents plugging and blinding

### Easy maintenance, proven reliability

- Same MV vibrators utilized on all Metso screens and feeders
- Optional automatic greasing unit for reduced maintenance
- Side plates without any welding and huckbolt assembly: safe and reduce possible fatigue stress

### Trellex LS screening media

- Optimized for Metso Screens, Trellex LS helps achieve higher volume processing with minimal interruptions

## C series jaw crushers

### Robust, modular frame construction

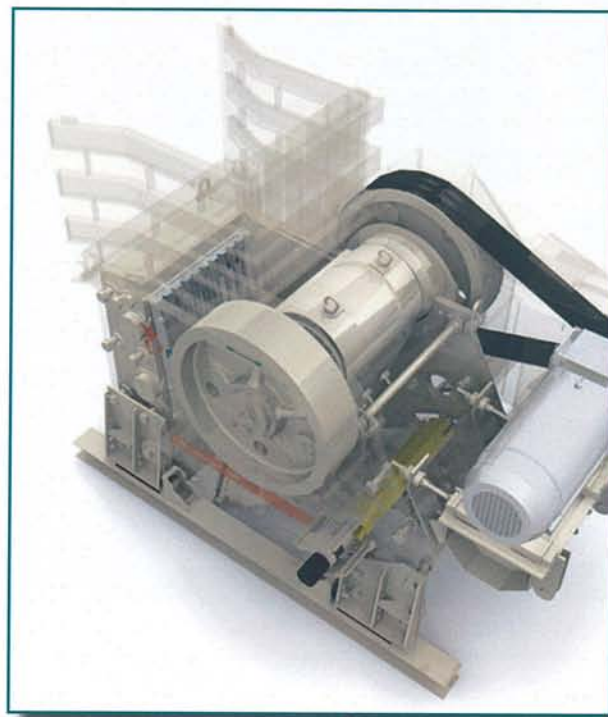

- No stress inducers such as weld seams
- Excellent durability against shock loads
- High-quality cast steel frames

### Low installation and operating costs

- Fast and safe wedge setting adjustment system
- Rubber damper crusher mounting
- Versatile integral motor base
- Compact and service friendly flywheel guards
- Automatic grease lubrication system

### Wide range of applications

- Aggregate, mining (surface and underground)
- Recycling and industrial
